

Welcome to X-Cog!

The screenshot shows the X-Cog software interface. At the top left is a 'File' menu. The main area contains a grid of task buttons: 'rainmaker', 'fruitpress', 'parcel service', 'blubb', 'salad clash', 'comet storm', 'maze', 'honeymoon', 'treasury', 'egg alarm', 'bridgework', 'candy factory', 'jewel search', and 'flower search'. A 'honeymoon' task is highlighted with a callout box showing a story illustration. A 'salad clash' task is also highlighted with a callout box showing a grid of items. At the bottom, there are buttons for 'perform task', 'instruction', 'Highscores', 'private highscores', and 'view results'. Below these are progress bars for 'Attention' (0), 'problemsolving' (10), and 'motor' (0). A difficulty level selector on the right shows levels: 'beginner', 'skilled', 'artist', and 'professional'. Callouts provide additional information: 'Direct feedback of success for each task' points to a task button; 'Every task can be played in one of five levels of difficulty' points to the difficulty selector; 'Detailed graphical display of results on demand' points to the 'view results' button; 'Painted and animated stories for each task (see screen shots above)' points to the 'honeymoon' story; and 'Graphical mapping of tasks to cognitive domains. Immediate display of achievement level' points to the progress bars.

Direct feedback of success for each task

Every task can be played in one of five levels of difficulty

Detailed graphical display of results on demand

Painted and animated stories for each task (see screen shots above)

Graphical mapping of tasks to cognitive domains. Immediate display of achievement level

the address denoted on the left in a
post-paid envelope*

Dear Sir or Madam,

we would like to order

licenses of X-Cog® (recent version) at the price of 100€ / year.

My preferred language is (please choose one):

- English
 German
 French
 Danish

Please send X-Cog® to:

_____ (name)
_____ (company)
_____ (street)
_____ (ZIP, city)
_____ (country)

further contact information:

_____ (email)
_____ (phone)
_____ (fax)

_____, (date)

(signature and company stamp if applicable)

The tasks in X-Cog have been developed to improve

- **memory** (visuo-spatial and verbal)
- **problem solving** (analysis and strategy),
- **visuo-motor skills**, as well as
- **attention**

The current version consists of 19 tasks, which can be administered in five levels of difficulty.

The player has to control characters (BOBs) that face several adventures, such as rescuing a princess which has been captured inside of a maze, protecting salads from hungry snails etc.

For more detailed information please refer to
www.eurocog.eu or
www.x-cog.de.
